Digital Ad Specifications

GENERAL INFORMATION

Publication Size: 3,000x4,000 pixels

Safety: 2,750x3,750 pixels

Image resolution: 300 dpi

Color space: RGB

ALTERNATE AD SIZINGS

Advertisers must submit two separate brand ads. One at publication size and one sized for mobile to ensure optimal viewing. In some cases a third size may be necessary. Please refer to the ad upload checklist (next page) to reference requirements for your ad placement.

ACCEPTABLE FILE FORMATS

Image: JPG, PNG, WEBP

Motion/Video: MP4, GIF (5MB or less), or support for YouTube/Vimeo embedded videos

IPDF/X-1a: The PDF/X-1a must be made from a PostScript file with all fonts and high-resolution images embedded. Ensure that all elements are a minimum of 300 dpi and 100% in size.

COMMON AD PROBLEMS TO AVOID

Please check your ad for these errors before uploading:

- × Incorrect dimensions
- × Text outside the safety area (too close to edge)
- × Low-resolution images
- × Images not converted to RGB

BEST PRACTICES

- ▶ Avoid QR codes if possible (if user is viewing on their phone, they will not be able to scan)
- ▶ Font size should be 16pt or larger for legibility
- ▶ Ensure there is enough color contrast between text and background

WE WANT YOUR AD TO PREVIEW CORRECTLY

Late ads with problems or last-minute changes increase the chance of error. Please make every effort to deliver your materials on time and to our specifications.

CHANGING YOUR AD

Any ad intervention requested by the advertiser and/or required by our production team may result in additional charges to the advertiser.

DISCLAIMER

G&G Weddings is dedicated to ensuring the best ad reproduction. Please follow this information carefully to ensure that your ad meets stated specifications. We cannot take responsibility for materials that are not in accordance with these specifications.

For more information, please contact your sales representative or advertising@gardenandgun.com.

Ad Upload Checklist

AD DELIVERY

We require that ads be uploaded to our simple and secure ad portal, which will ensure that they meet our specifications before going live.
